

Call for Application **Assistant Professor in Mathematics – Teaching and Research**

Mohammed VI Polytechnic University is hiring an Assistant Professor in Mathematics for the next academic year, *starting September 2019*.

Mohammed VI Polytechnic University (UM6P) is a recently established non-profit university that has the ambition to promote high-quality education and research in respect of international academic standards. Furthermore, it aims to contribute to the development of the African countries.

Job Description and Duties: the faculty member will be responsible for regularly publishing in academic journals while instructing quality course content in Mathematics at the undergraduate and graduate levels. He or she is also expected to participate in professional development and stays current in both the academic field and teaching best practices. While financial resources are provided to conduct research in one or several research topics of the University Research Centers, the professor is supposed to obtain external grant funding as well.

Qualifications: the candidate must have a Ph.D. in Mathematics and a proven experience in teaching and research. A focus on Applied Mathematics to economics is preferred. The faculty member is required to be highly qualified as outlined by the scientific community and academic standards. We are looking for an engaged and prolific researcher, and an eminent teacher.

Application requirements: the application consists of the following:

- ✓ Curriculum Vitae;
- ✓ Full list of publications;
- ✓ Digital copy of the Ph.D. degree certificate;
- ✓ Previous teaching experience.

Applications must be submitted to: recruitment.humanities@um6p.ma, by **April 30th, 2019**. Please attach a single file containing all above to your email with the mention “*Mathematics*” in the subject. The Applications will be reviewed by a scientific committee. The short-listed candidates will be invited to meet the university selection committee. When it is not convenient, this meeting can be done by videoconference.

Qualified Sub-Saharan nationals and Moroccan nationals living abroad are strongly encouraged to apply.

Salary and Benefits: salary scales and allowances are competitive, meet international standards, and commensurate with experience. Subject to certain conditions, the University provides practical assistance in relocating and accommodation.

Job location: thanks to its prestigious architectural landscape and modern equipment, the University offers premium conditions for a desirable lifestyle. The campus is located in the Green City of Ben Guerir, only 70 km away from Marrakech.
